

## ENVIRONMENT POLICY

Red Hawk considers sound environmental performance and management are essential to the success of the Company. Red Hawk is committed to carrying out exploration and mining activities in a way that minimises impact on the environment and encourages sustainable practices.

Red Hawk demonstrates its commitment to reducing environmental impact through:

- integrating environmental factors into planning and operational decisions and processes.
- proactively engaging with, understanding and considering the expectations of all stakeholders in our operations for diligent environmental management.
- assessing the potential direct and indirect environmental impacts of our activities, and regularly monitoring and auditing our environmental performance.
- striving for continual improvement in our environmental performance by identifying and managing environmental risks and opportunities and adopting the best available environmental management practices.
- monitoring and measuring our environmental performance, and implementing measures wherever possible to reduce the impact our operations have on the environment.
- taking all available steps to minimise our impact on the environment and remediate any effects in accordance with best practice.
- integrating rehabilitation and closure considerations in design and as an ongoing process throughout all activities to transition to closure effectively.
- promoting environmental awareness among company personnel and contractors to increase understanding of environmental matters.

This policy will be pursued in conjunction with Red Hawk Health and Safety and Community and Stakeholder Engagement policies.

The Company will communicate with the public on environmental matters.

Red Hawk's Board of Directors and Executive Management Team are committed to ensuring risks are identified, assessed and managed and opportunities identified to meet our commitments under this policy.
